

VRX1000 VEHICLE RADIO EXTENDER

Public safety agencies and utilities seeking alternative methods for portable radio coverage enhancement can safely rely on the VRX1000 Vehicle Radio Extender.

The VRX1000 is a compact 3W simplex radio extender integrated with Motorola APX™2500, APX™4500, APX™5500, APX™6500 and APX™7500 mobile radios. A scaled down version of the industry leading 10W full duplex DVRS, the VRX1000 improves portable radio coverage while keeping users connected to either conventional or trunked networks. The small size of VRX1000 allows it to be easily installed in patrol cars and utility trucks.
