

COMMUNICATE WITH CONFIDENCE

MOTOTRBO™ ESSENTIAL SERVICES

Motorola Solutions is enhancing the MOTOTRBO platform with new service packages that include access to software updates, premium software features and extended hardware repair services. Your business's security and technology needs are rapidly evolving, and we want to make sure you have a world-class experience each and every time you use your MOTOTRBO products.

These new service packages bring three key benefits to your MOTOTRBO platform

Subscription Pricing Model

You enjoy the benefits of subscription services every day in your business and personal life. So why should your business-critical communications be any different? There are no surprises when it comes to paying for the product, software, or service. No uncertainty around how the cost will fit into your budget. This makes budgeting predictable, and you always know what is included and what to expect.

[NEW](#) ▶ [EXISTING](#) ▶

The Value of Software Updates

MOTOTRBO, as all computing systems, is composed of hardware and software. The value of hardware is significant, but static. The value of software, on the other hand, keeps growing over time. Access the latest and greatest features and functionality available with each software release for added capabilities, security, and reliability. This increases the value of your investment with every update.

Access to Premium Software Features

Experience the power of the MOTOTRBO platform and go beyond voice with access to premium software features, previously sold a la carte. The features you need to increase productivity aren't wishful thinking - they're a smart reality. Enable the right premium software features for the right teams, so they can be safer and more efficient when it matters most.

**COMPLEXITY MANAGED.
CALM PREVAILS.**

MOTOTRBO Essential Services provide you with a reliable approach to protect your investment through expanded software capabilities and improved reliability and security. This allows you to lower your total cost of ownership and manage the complexity of your communications operations. Because when complexity is managed, you can focus on what matters most.

Advanced Replacement for Network Hardware Repair is a repair exchange service for Motorola Solutions repeaters & Capacity Max system servers. This add-on service is available for systems so you can stay productive and run an efficient operation.
