

# The L6Q quick-deploy LPR camera system

Rapid install, rapid insights

The Motorola Solutions L6Q license plate reader delivers enhanced safety and security right at the door. Combining License Plate Recognition (LPR) technology with simple installation and ease of use, this radar-based camera triggers when vehicles move at specific speed thresholds, even in total darkness. Paired with VehicleManager Enterprise, the L6Q adds a layer of efficiency to your security and parking operations with patented analytics and configurable data-sharing capabilities.

## Quick deployment

Install, configure and activate the L6Q on your own within a few minutes. Mount it on almost any surface and complete the setup with the Mobile Companion app on your Android or iOS device.

## Temperature & weather resistant

Install the L6Q in the hottest and coldest locations with its wide operating temperature range, while its IP67-rated design can withstand varying weather conditions such as rain and snow.

## Solar, battery & AC/DC power options

Deploy the L6Q where needed with versatile power options, including solar, AC/DC, as well as a swappable internal battery.

## Get the right data

Configure the L6Q to trigger for vehicles moving at specific speeds, up to 75 mph (120 km/h), and travel directions up to 75 feet (23m) away across multiple lanes and capture the make, model and color.

## Tamper-proof with paintable shroud

The L6Q is built to be physically secure and to blend in with its surroundings by easily removing and painting its shroud.

## Analytics

Benefit from an industry-leading software to manage hot lists and alerts, conduct advanced searches and run patented analytics such as association and location analysis and convoy identification.
